

Interested in growing your know-how while playing a part in creating a unique IT platform?

We are WAVES – offering an IT platform that makes sustainability visible. We are a growing firm currently developing our first IT applications.

We are looking to hire:

## Students knowledgeable in the field of Life Cycle Assessment (LCA)

### Your responsibilities will include:

- Helping build our IT platform
- Overseeing internal projects
- Providing assistance with system documentation

### Qualifications profile:

- Well-versed in current ISO carbon footprint and LCA standards
- Some experience with LCA software
- Some LCA project experience desirable
- Good English

### Other requirements:

- Knowledgeable about documentation procedures
- Able to work independently, interested in taking on new tasks and challenges
- Structured, methodical work approach
- Open to ideas

**As a member of our team you will have the space to develop innovations and make decisions on your own.**

### We offer

- an attractive work environment as part of a young and dynamic team with flat hierarchies
- opportunity to grow along with the firm, enhancing your expertise and skills
- an attractive pay package

Interested?
