

Interested in putting your market research skills to use in promoting sustainability?

We are WAVES – offering an IT platform that makes sustainability visible. We are a growing firm currently developing our first IT applications.

We are looking to hire:

Students to work in market research

Your responsibilities will include:

- Developing and conducting market research studies either as primary research or by accessing secondary data
- Data-driven identification of customer needs and requirements
- Data-driven generation of competition, trend, and benchmarking studies
- Providing meaningful market reports and overseeing forecasting processes

Qualifications profile:

- University degree (Bachelor)
- Some experience with market studies and analytical methods
- Strong analytical and organizational skills
- Good communication and presentation skills
- Good English

Other requirements:

- Interest in sustainability and market research
- You enjoy quantitative work
- Structured, methodical work approach

As a member of our team you will have the space to develop innovations and make decisions on your own.

We offer

- an attractive work environment as part of a young and dynamic team with flat hierarchies
- opportunity to grow along with the firm, enhancing your expertise and skills
- an attractive pay package

Interested?
